

CALL FOR ENGAGEMENT Associate Editors Wanted

We require several **Associate Editors** (voluntary work) for our all 4 journals. Each Associate Editor will work with the Executive & Managing Editor for only 1-2 hours per week from whichever place is convenient for her/him. The name and profile of Associate Editor will be placed on the website, and only the name will be mentioned on first page of each of the published articles in the journal s/he is associated with. For 2 years, this position is ideal for PhD scholars or fresh PhDs having strong English writing/editing skills and patience for correcting the scientific works authored by others. Persons having experience of handling indexing platforms and willing to push research content on social media will be given preference.

Those who wish to join our team and contribute/learn the editorial processes are advised to first read the website www.grassrootsjournals.org thoroughly, including rigorous editorial process flow available on the link <https://www.grassrootsjournals.org/editorial-process.php>. Our journals' each of the published articles is appended with the background works (Review Reports, Editing Work, Ethical Declarations). A sample can be seen here <https://www.grassrootsjournals.org/gjnr/0404m00274.html#status>. So, an Associate Editor's background work will be appended with the article on which s/he would work. One-to-one guidance, mentorship, and monitoring support will be provided by the Executive & Managing Editor. On completion of 2 years, a Work Experience Certificate will be issued by the Editor-in-Chief with the counter signature of the Chairperson of The Grassroots Institute.

There is NO DEADLINE for application, but as soon as we fill all the positions, we will stop accepting new applications. Similarly, there is also not a fixed date to begin. On receiving the application, we will assess and initiate discussions. A cover letter containing CV and List of Publications should be sent to editor@grassrootsjournals.org

For any clarification or further guidance, please contact Dr. Hasrat Arjjumend on the given email address. Looking forward to welcoming the interested candidates.
